

Belt Conveyor

CRUSHPOWER delivers the world's most comprehensive range of Heavy-duty conveyor belts. Based on the experience in development, manufacture and applications know-how, CRUSHPOWER designs the unique belts and belt systems to meet specific end-user requirements for high performance and cost-efficiency

Product Description

Width (mm)	Length (m) Power(kw)		Speed (m/s)	Capacity (T/H)
400	12~20/2~2.4	20~25/3.5~7.5	1.25~2.0	30~60
500	12~20/3~5.5	20~30/5.5~7.5	1.25~2.0	40~80
650	12~20/4~5.5	20~30/5.5~11	1.25~2.0	80~120
800	10~15/4~5.5	15~30/5.5~15	1.25~2.0	120~200
1000	10~20/5.5~11	20~40/11~22	1.25~2.0	200~320
1200	10~20/7.5~15	20~40/15~30	1.25~2.0	290~480

Note

- Designs and specifications are subject to change without prior notice.
- Dimensions are intended only as guide for preliminary planning of the installation and should not be used for construction of foundation etc.
- All rights are reserved by us to change the dimension without any prior notice what so ever.
- The Output in TPH indicate above is based on average hard dry quartz weighing one at least 1.6 ton/m³ when crushed and on continuous feed of graded sizes with fines removed.
- Capacities may vary by 25% depending on type of rock, gradation and method of feeding.
- Where no capacity rating is given in the table, it is generally not economical to operate at such a setting.
