

Chemical Tanks

We are among one of the leading manufacturers of plastic vertical chemical / acid processing tanks ideal as non-pressurised processing vessels / tanks since 1986. These ensure drainage from bottom. The conical bottom & disc bottom & disc bottom chemical / acid processing tanks are all offered with different capacities.

Best for storing chemical and acids, horizontal chemical / acid storage tanks are available with minimum capacity of 550 litres to 20000 litres.

Unique Features:

- Latest manufacturing technique
- Acid, alkali and chemical resistant
- Reasonably priced
- Extremely durable
- 100% Leak Proof.
- Immunity to maintenance
