

# Machine Building

## Special Purpose Machines

We make Special Purpose Machines like Concrete Block Making Machine, Paver Block Making Machine, Kerb Stone Making Machine, Concrete Block Cutting Machine, Fly Ash Brick Making Machine, Designer Tile Making Machine, Pan Mixer, Reversible Discharge Concrete Mixer, Mini Batching Plant and many more Construction Equipments.

## Hydraulic Press for all Applications

Leveraging on our skilled and qualified professionals, we are actively involved in offering a trendy range of Hydraulic Press to our valuable customers at pocket-friendly prices. Owing to its user-friendly operation and less power consumption, the rendered hydraulic press is highly demanded.

## Block Making Machine

The frame consists of stable, compact welded box construction made out of steel channel or square pipe with sufficient wall thickness. The guide pillar for mould and compactors head are solid steel shaft made out of alloy steel material.

## Material Handling Equipments

Our vast industry knowledge and in depth domain experience has enabled us to offer premium assortment of Material Handling Equipments that are extensively used for efficient lifting and handling of heavy loads. These are made by using cutting edge technologies in modern manufacturing facilities and are offered in variety of application specific designs to our clients at leading industry rates.
