

Micro Pulverizer

We manufacture micro pulverizers in various sizes and models. Our micro pulverizing equipments grinds easily any type of granular to finest dust up to 300 mesh.

See our special features and details:

Model Type		Baby	No. 1	No. 2
Size of Grinding Chamber [Inch]		5"	8"	11.5"
Beaters [Hammers] - [Nos.]		6	6	24
Feed Screw [Nos.]		1	1	3
Motor for Main drive		2 HP	5 HP	10 - 15 HP
Motor for Feeder drive		-	0.75 HP	1 HP
Maximum Feeding size of the material		5 mm.	10 mm.	10 mm.
Maximum overall dimension : [in m.m.]	Height	1375 (55")	1550 (62")	1800 (54")
	Width	800 (32")	1300 (52")	1600 (54")
	Depth	700 (28")	1000 (40")	1300 (52")
Maximum Capacity in Kgs / hr.		10 - 25 Kgs.	60-125 Kgs.	300-500 Kgs.
Fineness Mesh up to		100 to 300 mesh B. S. S.		

Note : The capacity and mesh stated above are approximate only depends upon the nature of the materials to be pulverized.
