

# Plug Valve

Dalmine Valves is a manufacturer of **Plug Valve** of various grades such as **ASTM A694 F70 Plug Valve** , **ASTM A694 F65 Plug Valve** , **ASTM A182 F12 Plug Valve** , **ASTM A182 F9 Plug Valve** in India. Fluid flows from higher pressure to lower pressure through an open valve. Plug Valve Manufacturer in India and are used in systems where the operator may remotely open and close them using air or gas. Plug Valve can be finished or coated in several ways, such as corrosion resistance, cosmetic coatings, or no coating at all. We are also one of the largest Plug Valve Stockist in India, which are used to produce non-permanent connections that may be withdrawn or disassembled without causing damage to the connecting components. We are also recognized as the top [Needle Valves Manufacturer & Supplier in India](#).

## Plug Valve Specifications, Standard, Size & Grades

There are a few key specifications you need to know before purchasing a quality Plug Valve .

Specification	Details
Design Standard	API 6A, ASME VIII, API 6FA
Pressure/Temperature Chart	ASME B16.34
Face to face Dimension	API 6D, ASME B16.10,
Testing Standard	API 6A / ISO 5208
Flange Details	ASME B16.5 / API 6A
Size Range	2 1/16" to 4 1/16"
Pressure Classes	2000 – 10,000 PSI
Product Spec Level	PSL 1, 2, 3, 3G & 4
Materials	4130 / 410 / A487 4C / CA15 / CF8M / Duplex / Super Duplex / Inconel
Trims	API Class AA - HH
Seats	TCC coated

Specification	Details
Ends	Flanged / Welded

## Top Selling Plug Valve Types

Plug Valve are a type of quarter-turn valve that uses a hollow, perforated ball to control the flow of fluid through it. They are used in a variety of applications, including water treatment, oil and gas, and chemical processing. There are several types of Plug Valve , each with its own unique features.
