

Scourer Machines

Shri Viratra Engineering have been able to offer an extensive range of Intensive Scourer Machine . This machine is used for the surface treatment of wheat and rye for removing adhering dirt and impurities such as dust, sand, earth clots, insect fragments, etc. The offered machine is manufactured by our professionals using quality tested components with the help of cutting-edge technology.

Our valuable clients can avail this machine from us at very affordable price. The stock is fed via the inlet mounted on top of the machine. The rotary part captures this material. The food is gently scoured. Scouring takes place during friction. Finally, the isolated material goes onto the outlet duct, and Impurities are guided to the exit via outlet ducts. Features include Excellent performance, Sturdy construction, Energy efficient, High Quality bearings for smooth operation.

Technical Data

Automation Grade	Automatic
Machine Full Size Length	1250mm X 700mm X 1600mm
Machinery Weight	250 KG - 3 000 KG
Machine Material	Mild Steel

Power Type	AC
Power Consumption	5 HP- 30 HP
Phase	Three Phase
Voltage	220 Volt/ 440 Volt
Vibro Motor	5 HP X 1 Nos.
Pulses Type	All Kinds
Recovery of head pulses	70 - 80 %
Production Capacity	1-1.5 Ton/Hour
Recovery of Broken Pulses	Less than 1%
Warranty	1 Year
