

Gravy Machine

Are you the owner of a small eatery, a restaurant, or a home cook ? If so, the Gravy Machine is the machine for you. This machine is composed of standard stainless-steel materials that give strong corrosion resistance and can crush many items for preparing chutney, sauce, puree, gravy, and so on. In fact, it can work with hard materials as well. This machine is also highly excellent at crushing lentils (Dal). You may learn how to use this machine by watching videos.

This machine has a production capacity ranging from 10 kg/hr to 600 kg/hr. This machine also includes all necessary attachments; therefore, no more funds are required. We will ship the machine anywhere in the world directly from our production facility in Ahmedabad.
