

Air Knife

Air Knife system uses compressed air to blow / cool off excess water /oil / dust particles from a product. Since the Air knife does not practically come in contact with the material it is used upon the material stays clean. We offer Air knife nozzle that is made high-grade raw material. We usually offer Air knife made of Aluminium / Stainless Steel, Air Knife Manufacturer in Mumbai

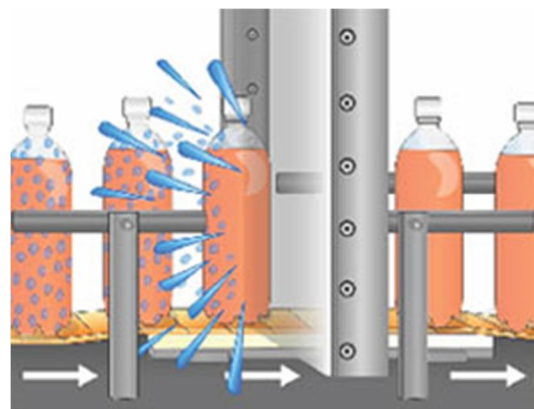

Applications:

- ▶ Film drying
- ▶ Food Items drying
- ▶ Tin Can drying
- ▶ Bottle drying
- ▶ Drying and Cleaning of Metal profiles
- ▶ Plastic granules drying
- ▶ Water Blow off
- ▶ Dust / Dirt Blow off
- ▶ Blowing off Oil from Noodles
- ▶ Blowing off Oil from Pastas
- ▶ Cooling of Coated plastic / polymer film
- ▶ Drying of Coated plastic / polymer film
- ▶ Cooling of printed circuit boards
- ▶ Drying of printed circuit boards
- ▶ Cooling of Coated Paper
- ▶ As air curtain for protection of sensors
- ▶ Tube drying

Industries Catered:

- ▶ Food Processing Industries
- ▶ Packaging and Processing Industries
- ▶ Noodle Manufacturing
- ▶ Metal Processing Industries
- ▶ Agro Based Industries
- ▶ Plastic Manufacturing and Processing

Advantages:

- ▶ Low maintenance
- ▶ Compact Design
- ▶ High efficiency
- ▶ No Lubrication required

- ▶ High temperature Capability
- ▶ Low operating and maintenance cost
