

Labeling Machine

Krupashindu Consulting Engineers are a leading Manufacturer & Exporter of Labeling Machine such as Bottle Labeling Machine, Automatic Bottle Label Machine and Hot Melt Label Machine from India.

With rich industry experience and knowledge, we are manufacturing, exporting and supplying a qualitative assortment of Labeling Machine to our clients. The provided machine is manufactured using the best quality raw material with superior technology. Furthermore, our provided machine is also checked by our quality checkers as per set parameters to ensure that the entire machine is free from any defect. Moreover, our esteemed clients can avail this machine from us at market leading prices.

Features :

- ❖ Accurate dimensions
- ❖ Fine finish
- ❖ Performance oriented design

Other Details :

- ❖ No data input require for change in bottle size and label size
- ❖ Stainless steel 304 construction
- ❖ No change parts required for bottle size and label size

- ❖ Accurate label placement
- ❖ 100 % PLC base system
- ❖ Built in A.C. Variable frequency drive for speed control
- ❖ Suitable for Glass / Plastic, Pet, Aluminum, HDPE Containers
- ❖ In built digital pulse counter

Applications :

- ❖ This machine is suitable for labeling on Round, Bottle, Jars and other round objects and is used in Food, Pesticides, Pharmaceutical, cosmetics and other similar industries.
