

Pipe Fittings

We are a well known manufacturer of forged pipe fittings fabricated in various grades of steel and its alloys. Our forged pipe fittings are manufactured with utmost precision, ensuring that our range of products comply with international quality parameters. Available in various dimensions, these are highly acknowledged for superior strength, corrosion resistance and longer functionality. Our range of forged pipe fittings covers all grades of Duplex, Super Duplex, Titanium, Stainless Steel and Carbon Steel.

Materials of Construction

High Nickel Alloys	ASTM / ASME SB564 Hastelloy C276 & C22, Nickel 200 & 201, Monel 400 & 500, Inconel 600 & 625, Incoloy 800 & 825, Alloy-20 & Cupro Nickel
Duplex	ASTM A182 / UNS S31803 & S32205 (2205)
Super Duplex	ASTM A182 / UNS S32750 (2507) & S32760.
Titanium	ASTM B381 - 10E1 Gr. 1, 2, 3, 5 (6AL - 4V) 7, 9, 11, 12, 23 (6AL- 4V ELI)
Stainless Steel	ASTM A-182 3000 lbs / 6000 lbs / 9000 lbs ASTM A-182 TP304, 304L, 304H, 316, 316L, 316H, 316Ti, 309, 310, 317L, 321, 347, 904L
Carbon Steel	ASTM / ASME A105/ A105N/ A694 F42/46/52/56/60/65/70 / A350 LF3/ A350 LF2
Test certificates	MTC, IBR & Third Party Inspection
