

Gases & Gas Cylinders

We supply various kinds of industrial gases and cylinders. Industrial Gases And Its Cylinders on Loan Basis /Outright sale with certificates.

THESE INDUSTRIAL CYLINDERS ARE FILLED AT 150 KG/CM³ AND TESTED AT 250 KG/CM³.

Oxygen	Acetylene	Nitrogen	Argon	CO ₂
Hydrogen	Helium	Compressed Air	Medical Oxygen	Nitrous Oxide
Liq. Nitrogen (with Can)	UHP Gases	Calibration Gases	Mixed Gases	Propane
Hydrochloric Acid	Methane	Ethane	Ethylene	Propylene
Cis -2-Butene	Iso Butane	N - Butane	Iso Butylene	1 Butene
H ₂ S	CO	Neon	Krypton	Phosgene
Boron Trifluoride (BF ₃)	Trans-2-Butene	Freon	Fire Extinguishers	
Chlorine	Ammonia	Ethylene Oxide	Sulphur Dioxide	

Over the years we have been providing high efficiency cylinders as well as variety of gases to a wide range of industries and applications across the country. The cylinders are available in different capacities ranging from small and medium sized to large sizes. These are sourced from well known manufacturers and retailers and thus are in accordance to high industrial quality standards.

Features:

- Cylinders provide versatile methods of gas supply
- Available in full range of sizes and pressures
- Different grades of gas purities
- Wide gamut of gases and gas mixtures
- Available at best market prices
