

Dosing Pump

If you are still using Oversized 6 lph pumps and operating them at low frequencies If you are you filling your Chemical Tanks Too Frequently

If you are Diluting your Solutions too much Achieve Better Accuracy, Finar Control and Longer Life with New e Dose of 1 lph / 1.5 lph and 3 lph capacity

These pumps are ideally suited for RO plants having capacities upto 10 m³ / Hr. and lower. Or places where chemical consumptions is very low.

Technical Specification	
Electrical	230v A.C. 50 Hz
Suction tubing	4/6 mm
Discharge tubing	4/6 mm
Dosing rate	1.5 / 3 / 6 / 10 lph at 4 kg/cm ²
Strokes / Minute	max 400

Material Of Construction	
Pump Head	Glass filled Noryl
Diaphragm	Teflon
Connectors	ABS / PP
Suction tubing	PVC / PP
Discharge tubing	PVC / PP
