

# Ribbon Blender

It is an equipment used for mixing solids along with other solids as well as liquids; The Unit Consists of U- Shaped horizontal trough and a specially designed double helical ribbon agitator rotating within. Ribbon Blender provides high degree of mixing in less time with efficient blending.

## **Technical Specification:**

- Gentle Mixing in less time with minimum power consumption
- Easily blends large volume of dry solids
- Can be used for Dry powder to wet phase mixing
- Flange connection ribbon shaft or Thru ribbon shaft
