

Dumper Placers

Bisariya supplies the best and heavy duty Dumper Placers . We use counted among the leading suppliers of waste handling and hydraulic equipment. The Dumper placer is available in single and twin bin system. The Dumper placer is generally mounted on a L.C.V, M.C.V or H.C.V truck chassis. It is taken to the dumping site where the load is dumped conveniently. Each Dumper Placer is designed to suit the customer's specific purpose.

Salient Features :

Garbage / refuse is directly collected into the containers which are placed at various collection points in the busiest and most thickly populated areas of the city . The system with the loaded containers is transported to the dumping site and the same is tipped hydraulically to discharge its load.

Designs of Dumper Placer :
