

Anchor Fastener

Assisted by the team of highly skilled procurement agents, we are engaged in offering a quality range of Anchor Fasteners. Before the final delivery, these fasteners are thoroughly checked by quality controllers under several stringent tests. Some of the key features of our Anchor Fasteners are as follows:

Securely fasten mirrors, curtain-drapes-shelf brackets, pictures, cabinets, bathroom fixtures, to hollow walls of plaster over wood lath or metal lath, wall board, gypsum or cinder block and hollow, and tile.

Fixtures can be removed or replaced for redecorate without disturbing the hollow wall anchors.
