

Jaw Crusher

- **Description**

Being reputed Oil lubricated Double toggle jaw crusher manufacturers, our single and double toggle jaw crushers are constructed of heavy duty fabricated plate frames with reinforcing ribs throughout. The crushers' components are of high strength design to accept high power draw. Manganese steel is used for both fixed and movable jaw faces. Heavy flywheels allow crushing peaks on tough materials. Jaw Crusher is widely used as primary and secondary crushing equipment to crush material with compression strength less than 320 MPa. "It is widely used in Mining, Metallurgical, and Infrastructure/Construction Industries" Oil Lubricated Double Toggle Jaw Crusher : **Sizes available:** 12" x 7" (300 mm x 175 mm)/60" x 48" (1500 mm x 1200 mm) **Maximum Feed Size:** up to 40" (1000 mm) **Capacity (TPH):** 610
