

Zinc Alloys

We produce a wide variety of zinc alloys which are used in automobile, hardware and other industries.

We are capable of producing zinc alloys which can meet stringent national and International standards like IS, BS, JIS, DIN and ASTM and also as per customer specification. We are mainly concern about better product traceability for achieving it the mould shape in line with international standard for Zamac/Mazak-3.

Zinc Alloys are manufactured Using SHG Zinc (99.99% purity).

More Details About Chemical Compositions

Final Products of Zinc Alloy Ingots:

Zamak - 3

Zamak - 5

ZDC - 1

ZDC - 2

ZDC - 3

Zinc Alloys Ingots & Packing Measurements

Ingots Packing

Weight $8.00 \pm 0.5\text{kgs}$ 1050kgs

Length 458mm 930mm

Width 104mm 460mm

Height 42mm 670mm
