

# Autoclave

## Rubber Vulcanizing Autoclave For Automobile

Energypack specialised rubber vulcaniser for tyre industries

## Hot Air Circulation Autoclave

Import substitute product designed with quick closing door assembly for hot air circulation vulcanisation. Diameter 2200 mm & length 6000 mm.

## Wood/Coal Fired Dewaxing Autoclave Boilers

External steam generation with solid fuel which very economical in operation in India.

### **Oil Fired Dewaxing Autoclave Boilers**

Dewaxing autoclave with inbuilt steam accumulator to take care of more steam demand during pressurisation.

### **Gas Fired Dewaxing Autoclave**

Unique ☐ design to supply steam from external steam generator with gas fired burner to reduce operating cost of the autoclave.

### **Electrically Heated Dewaxing Autoclave**

Energypack developed import substitute product for investment casting industries for dewaxing operation having quick closing door assembly heated with electrical heaters to generate steam for dewaxing
