

Magnetic Destoner

Kumar Magnet Industries - A leader in manufacturing high quality magnetic equipment such as **Magnetic Destoners** using advanced production methods and futuristic technologies. Owing to our expertise in the area of manufacturing magnetic destoners, we offer a comprehensive range of magnetic destoners to suit the different requirements of our clients.

Being a leading **Magnetic Destoner Manufacturers**, we provide high-quality and extremely reliable magnetic destoners at market leading prices in India. Designed using advanced technologies and quality tested raw materials, our **Magnetic Destoners** have high stone removing efficiency. Due to this, they are widely used to remove heavy foreign impurities like stones, metallic, glass pieces, mud balls, and other impurities from rice, wheat, pulses, and many other grains. Owing to longer service life, and robustness, our **magnetic destoners** are widely appreciated by our clients. While heavy particles migrate to the upper levels of the deck, the lighter particles migrate to the lower level of the deck and this is how our magnetic destoners help in tramp separation. Further, as the quality of our magnetic destoners is unmatched and

superior, we have emerged as one of the [Power Magnets Manufacturers](#) in India and a trusted [High Intensity Rare Earth Equipments Manufacturers](#) in Gujarat.

Leading Magnetic Destoner Manufacturer in Ahmedabad for Efficient Impurity Removal

We make use of high-grade quality natural magnets and thus our *Magnetic Destoners* are efficient and reliable. As the demand for clean, hygienic packaged food products is on the rise, we provide high-intensity Magnetic Destoners to facilitate the removal of impurities from grains. Featuring a robust design, our products are known for low maintenance and wear and follow industry standards. Due to our responsible attitude towards quality, we have become a leading **Magnetic Destoner Manufacturers** in Ahmedabad

Specifications:

- Diameters of 65, 75, and 100 mm and widths of up to 1200 mm are available
- Available strengths include 8000, 20,000, and 22,000 Gauss.
- 0.5 HP is the speed roll driven on
- Adjustable from 0 to 100 RPM is the variable speed, DC/AC geared motor drive
- Vibratory Feeders are available with controls
- The conveyor belts are 0.8mm thick

Advantages Of Using Magnetic Destoner In Industry & Application!

- Put on the proper protective gear, such as gloves and safety glasses.
- Ensure that the magnetic destoner is securely grounded to avoid electrical dangers.
- Get to know the machine's operation manual and safety requirements.
- When the machine is on, keep your hands and things away from the magnetic field.
- Inspect the equipment for damage or wear on a regular basis, and perform maintenance as needed.
- Stop the machine immediately if there are any problems or odd noises and get professional assistance.

Why Opt For Kumar Magnet Industries?

- We have a comprehensive range of high-performance magnetic destoner.
- One-stop solutions for quality and cost-effective magnetic destoner.
- We assure superior customer support.
- High volume production capacity while meeting strict delivery timelines.
