

SHYAM MAGNET

MAGNETIC MACHINERY | MAGNETIC EQUIPMENTS | VIBRATING EQUIPMENTS

Artist of Designing Magnetic Machinery

Company Profile

Shyam Magnet Established in 2004, at Rajkot (Gujarat, India) by Mr. Amarshi Patel with his more than 30 years experience in magnetic industry. With time under the proficient guidance Mr. Amarshi Patel's son Mr. Nikhil Patel joined shyam magnet with his fresh ideas and enthusiasm.

We at Shyam Magnet believe in best quality products as the most important part of our services since established and still we are working extremely hard to provide our customers high-quality products and services at a favorable price. We are bound to provide you best solutions for all your magnetics need with after sales services, not just any other marketing promise but this is what we used to do everyday for all our clients with our fully experienced workmates, R & D team and experience owners.

We like challenges and creating milestone out of that, just like we have created recently in 2015 for one of our clients at Samakhiali (Kutch, Gujarat). We setup seven step magnetic roller separator. Which is exceedingly rare and technically hard to create to provide them best end results. This is just one example we achieved more than 700 accomplished projects and many more to go with our 30% average growth a year in terms of our turnover.

Getting more and more capable every day is another sign of growth, currently manufacturing 60 to 70 units a month is regular practice for us but we are already capable of manufacturing 100 plus units a month as per your requirements.

Our Vision

Our strength is our vision, our vision is to provide best quality magnetic solutions to our clients in affordable prices as per their need and requirements.

Our Core Values

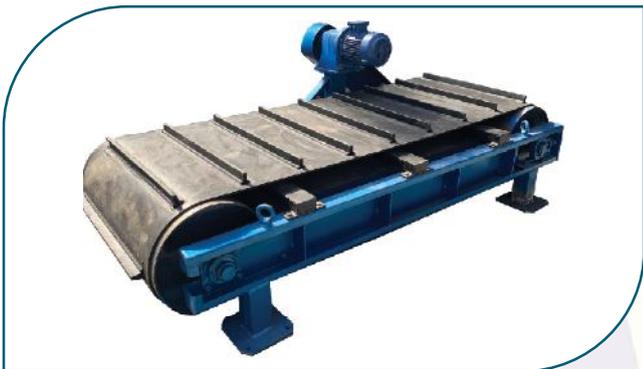

- ➔ Perfect Magnetic Solution
- ➔ Highest Quality Standards
- ➔ Professional Team
- ➔ Creative Solutions
