

Screw Conveyor

Howrah Kolkata West Bengal India Mana Enterprise is Manufacturers and Suppliers of Screw Conveyor. Screw Conveyors are used to convey material from one place to another place by means Rotating Screw type Auger. Material can be carried either horizontally or vertically or at required angle. It consists of a Screw Auger Rotating in a pipe for vertical lifting or in a U-shaped trough for horizontal conveying. The Screw Auger can be provided with dumping hopper for intake of materials. Discharge may be directly to storage bin or further equipments. Screw blades are made from high capacity press. These blades have precise dimensions and made up by heavy 5 mm MS sheet depending upon the material being carried. These blades have high wear and tear resistance to cope with different sorts of materials. Cleaning doors are provided at proper locations for cleaning of screw auger
