

Cartridge Housings

Product Description

The ECOCART filter cartridge housings from Eaton are characterized by their “lightweight construction” and are suitable for industrial and commercial applications that do not require acceptance testing. The ECOCART filter cartridge housings are particularly cost-effective solutions for price-sensitive applications.

Core features

- Surfaces electropolished outside, pickled inside (Multi), Blasted (Single)
- Parts in contact with product in stainless steel 316 (multi round), 304 (single)
- Filter cartridges in double open ended (DOE) design (and 222/Fin for Multi-Housings) can be used in lengths of 10", 20", 30" or 40"*
- Maximum operating pressure: 150 PSI or 300 PSI
- Maximum operating temperature: 200°F

*depending on housing type, see Technical Data Sheet

Applications:

- Coarse filtration > 500 µm
- Medium filtration > 10 µm
- Fine filtration < 10 µm
- Pre-filtration
- Batch filtration
- Circuit filtration
- Water, waste water
- Chemical industry
- Water treatment
- Galvanic industry
- Metal Cleaning
- Automotive industry
- Paint and lacquer

Options

- EPDM O-Ring, optionally available in FKM

EPDM: Ethylene Propylene Diene Monomer Rubber

FKM: Fluoro Rubber
