

## Distribution Panels

Backed by our in-depth industry expertise, we are offering a qualitative range of **Distribution Panels** to our clients at industry leading prices. Our range is well known for the durability and easy installation characteristics. We provide our range in different specifications, which can be customized as per the requirement of our esteemed clients.

A **distribution board** (also known as panelboard, breaker **panel**, or electric **panel**) is a component of an electricity supply system that divides an electrical power feed into subsidiary circuits, while providing a protective fuse or circuit breaker for each circuit in a common enclosure. **Main Distribution panels** are cabinets that house and separate subsidiary/branch circuits in addition to providing each circuit with protective fuses or circuit breakers.
