

# Bimetal Thermometers

## Applications

These gauges are used in Engineering plant, Machinery. Plant and Apparatus.

## Sizes

63, 100, 115 and 150mm

## Accuracy

±2.0% of FSD

## Scale Ranges -30 °C to 400°C

In Fahrenheit, in Centigrade and Dual Scale

## Standard Features

Connection

1/4", 3/8", 1/2" BSP / NPT, Fix / Adjustable

## Wetted Part

SS 304 / 316

## Location of Stem / Stem Dia

Centre Back / 6mm, 8mm, 10mm

## Sensor

Bimetal

## **Dial**

White Alluminum with Red & Black lettering

## **Mounting**

Bottom / Back

## **Threaded Entry**

1/4", 1/2" BSP/NPT

## **Typical Applications**

For Engineering Plant, Piping, Pressure Vessels, & Industrial Heating

## **Weather Protection**

IP 56

## **Pointer**

Zero Adjustment

## **Liquid Filling**

Yes

## **Case Material**

SS 304

## **Liquid Filling**

Yes

## **Optional Extras**

Surface Mounting, Panel Mounting, Bracket Mounting
