Twin o-ring design for leak tight enclosure Protection IP65 Usable to full scale Overload protection 130 % Measuring tubes SS316 / PB Minimized pulsation, Vibration and pointer flittering due to dampening effect This Product Compliance to Standard ASME B40.100 / EN 837-1 / IS-3624

Description:

- Twin o-ring design for leak tight enclosure
- Protection IP65
- Usable to full scale
- Overload protection 130 %
- Measuring tubes SS316 / PB
- Minimized pulsation, Vibration and pointer flittering due to dampening effect
- This Product Compliance to Standard ASME B40.100 / EN 837-1 / IS-3624
