

Pressure Calibrators

Product Overview

Ideal for calibration of vacuum & pressure gauges, switches, transmitters, etc.

Product Features

- MEASUREMENTS: Loop powered supply with mA measurement for Transmitter calibration . Electrical measurements of mA & Volts . Peak pressure measurements (High & Low peak)
- PRESSURE SWITCH TEST FACILITY: Opening and closing pressures are easily identified by display hold while opening and closing contact
- DISPLAY: Large backlit Graphical display . 'Auto OFF' function for longer battery life
- KEYPAD: Feather Touch keypad for easy operation . Dedicated ZERO key for Zeroing before test
