

Digital Manometer

Product Overview

Ideal for calibration of differential pressure transmitters, differential pressure gauge, level transmitters, flow transmitters, magnahelic gauge, etc.

Product Features

- MEASUREMENTS: Electrical measurements of mA & Volts
- Peak pressure measurements (High & Low peak)
- PRESSURE SWITCH TEST FACILITY: Opening and closing pressures are easily identified by display hold while opening and closing contact
- DISPLAY: Large backlit alpha numeric display with 2 lines (one line Pressure and second line for electrical measurement) . 'Auto OFF'function for longer battery life
- KEYPAD: Feather Touch keypad for easy operation.
- Dedicated ZERO key for Zeroing before test
- PUMP: Screw pump to build pressure
