

Ring Gauges

Ring Gauges are used to measure the outside diameters of the cylindrical objects whose Inner diameter is finished to close tolerances. Setting Ring Gauges are the master ring gauges which are made of standard dimensions so that it is easy to compare its reading to the Inner diameter of the work piece and the difference between them is noted easily.

Product Details

- Color = Black, Silver
- Features = Accuracy, Easy To Fit, Perfect Strength
- Surface Finishing = Polished

Business Type	Supplier, Retailer, Wholesaler
Material	Mild Steel
Shape	Round
Application	Industrial Use
