

Humidity Chamber

- This Instrument is in according to ASTM BS, DIN,ISO, IS (Indian Standard) or according to customer's required specification
- Inner chamber and trays made of Stainless steel
- Outer door made of Mild steel with magnetic gasket & lock key arrangement
- Inner door is glass door
- Trays are adjustable at any distance in a chamber
- Digital humidity controller fitted for cooling and heating cycle
- System is supplied with refrigeration and forced air circulating system also
- Wheel mounted on to the base for easy movement
- Temperature controller and humidity controller are digital
- Humidity wet and dry system 40 to 95% RH
- Temperature range: ambient to 80°C with L. C 0.1°C
- Boiler level protection system is in corporate
