

About Us

Welcome to "YASH" Valves

An International competence to Industrial Valves.....

Yash Valves are the pioneers for a wide and comprehensive range for **Industrial Valves who have been serving to clients in more than 35 countries worldwide.** We are a long established company producing wide range of manual, automatic, pneumatic, electrical actuated, industrial valves & instrumentation valves, which are precision designed to provide best solutions to industries like Chemicals, Thermal Power Stations, Textiles, Sugar Breweries & distilleries, Sewage & Water Treatment, Ship yards & Marine Management and others.

We are an ISO 9001:2000 Certified Company who believes in having advanced engineering capabilities and innovation driven focus to continuously expand our offering of Quality Industrial Valves.

The Company is established to provide best quality Valves at most competitive price. All Valves are being exported in accordance with internationally accepted standards like API/ASA/ASTM/ANSI/MSS/BS/DIN/JIS/IS specifications. The Product Range includes size range from 6 NB [1/4"] through 600 NB [24"], pressure rating from 125# through 2500# in almost all Material of Construction.

With use of updated technology, Intensive development work, countless practical tests and close contact with the customer to ensure top-quality with the lowest possible pricing in the market helps us to mark a name in the competitive global market. We adapt to latest technologies, which helps in facing different business challenges. We are constantly dedicated to provide the most effective industrial valves solutions at most competitive prices. We export our products across the world exclusively via a system that has proved its worth over the years & our adherence to quality and timely deliveries has made it possible to have many of the largest engineering conglomerates repeatedly prefer our tools.

With each new day coming we have constantly followed & believed in our hard work & commitments full heartedly. We have always believed in living upto the best expectation of our long associated clients & other associated partners. With an organized setup and huge stocks of inventory, we can promise the

best quality and on-time deliveries & quality packaging.

Product Range ---

Industrial Valves –

Ball Valves, Butterfly Valves, Knife Edge Gate Valves, Gate Valves both Solid & Flexible Wedge, Globe Valves, Non Return/Check Valves, Diaphragm Valves, Forged Steel Gate Valves, Forged Steel Globe Valves Forged Steel Check Valves, Plug Valves, Pinch Valves, Jacketed Valves in almost all types, Y Type/Bucket Type/Pot Type Strainers and Tailor-made/Customized Valves as per requirement

Instrumentation Valves –

Needle Valves, 2/3/5 manifold Valves, Safety / Relief Valves, Monoflanges & Bleed Valve instrumentation valves, Pressure reducing valves, Pressure gauge valves, Forged Body Gauge valve etc.

Raw Material

“YASH” make Industrial valves are available in almost all materials according to requirement of client. Some of the Regular material of construction used -- SS 316/ SS 316 L/SS 304/ CS, Gunmetal/Alloy 20 Unlined & Lined PFA

Cast Carbon Steel - ASTM A216 Gr. WCB.Cast Steel ASTM A352 Gr. LCB, LCA & LCCAlloy Steels ASTM A217 Gr. WC-1, WC-6, WC-9Stainless Steel 304 - ASTM A351 Gr. CF-8Stainless Steel 304L- CF- 3Stainless Steel 316L- CF- 8MAlloy - 20 - CN 7M /CD4M CuSuper Alloy Steels - Hastelloy - Gr. B and C.Forged Steel - ASTM A105SG/Ductile/C.I. Iron of different grades

Quality

QUALITY ASSURANCE:

Each Valve is designed and manufactured to conform recognized standards of the Valve Industry such as API/ASA/ASTM/ANSI/MSS/BS/DIN/JIS/IS specifications.

Stringent Quality checks are carried out at each stage of production to make our Valves operate trouble free for long time results & safe to use under the recommended pressure and temperature conditions. Each Valve is made from finest material & is subject to stringent, rigorous check & inspections at every stage for reliable and dependable valves required for high/low pressure, high/low temperature and for highly corrosive fluids.

Our achievements have been pasteurized by meeting our commitments and maintaining the highest standards of quality for our valued clientele of Private, Public, Semi Government Institutions & Project Works.

Quality- Complete Customer Satisfaction (CCS)

At Yash International, we believe in 3-sigma quality process

Maintaining World-class quality products & ensuring deliveries on-time Providing most cost-effective pricing to our clients Always ensuring complete customer satisfaction (CCS)

ISO Certification

We are a **JAS-ANZ ISO 9001:2000 Certified company** driven by Professional excellence, Technical competence and Total Quality Management system

We, Commit ourselves for supplying products that would give complete satisfaction to customer. We will strive to achieve growth and leading position in the market by; supplying consistent quality products to our valued customers.

Services

Offered Final Specification

Products shall be cleaned as individual components to be free of burrs. Chips, loose particles, oil, grease and other contaminants. The unaided eye under bright illumination shall inspect components. Components shall be protected from contamination after cleaning. Assembled products shall be lubricated as required by product specifications. Finished products shall be packaged and boxed for protection from contamination and damage during shipment and storage. Packages shall be marked for identification.

Components are de-burred by mechanical, chemical, electrochemical or other suitable means to remove burrs and break sharp edges as required. Oil, grease and loose particles are removed by cleaning with non-ozone-depleting chemicals.

Packaging

We have the in-house facilities available for International Sea worthy packaging. Wooden / Corrugated / plastic boxes specially made for the volumetric dimensions of tools & other packaging materials (if required) to make them reach safe to you

Reports & Certifications

To ensure the tooling profile & other parameters perfection & performance, we supply inspection reports to justify all technical parameters for testing quality & its originality, we also provide further raw material inspection reports(if required by the client)
