

Company Profile

Authentic, cost-effective and user-friendly and best in class equipments are the trademark of our corporate entity. These have led us a trustworthy name in market with continuous improvement in quality and gaining trust of our customers. Our sophisticated products are the choice of every client, who knows what is the best amongst the rest. We are a reputed manufacturer of the following products: -

- * Process Tanks
- * Heat Exchangers
- * ASME Tanks
- * Milk Silos
- * Carbon Steel Tank
- * Pressure Vessels
- * Air Receiver Tanks
- * Self Supported Chimneys

Our Setup

Our manufacturing unit is fully equipped with highly advanced machinery and technically skilled team of employees. Regular training and internal improvement sessions assist in keeping our employees abreast of every technological change in the market. The internal sessions result in harmony and co-operation between our professionals, which ensures a healthy working atmosphere. On the other hand, our machinery is checked from time to time to ascertain its smooth functioning. These factors help us supply world-class products to our deserving customers.

Quality Assurance

Quality is the main concern of Heat Max, which enforces our customers to return to us for further purchases. We adhere to international level quality norms that assure flawless quality products, leaving no scope for any kind of defect. The zero-defect products supplied by us are the real reason why our products enjoy an unmarred reputation.

Why Heat Max Project Pvt Ltd.

- * Clear cut business dealings
- * Complete fulfillment of customer needs
- * State of the art machinery- our real asset
- * Team of knowledgeable and qualified professionals- our biggest strength
- * Result-oriented and cost-effective equipments.

Our Clients

Our strict quality control and efficient after sales services, has given us an individual identity. Our biggest achievement is our wide network of customers, covering all the major cities of India. We have blue chip companies as a part of our clientele. At present, we are looking forward to expand our operations by including more cities and towns to our extensive list of customers.

Quality

We have set benchmarks in the industry with the impeccable quality of the products. To assure the quality, various stringent quality tests are conducted at initial level of material procurement and each stage of production till the final finished product is delivered. Trained quality control executives keep a strict vigil on the manufacturing process to assure the flawless production. We also exercise total quality control over the other aspect of our business as well. Subsequently, we are one of the trusted name in equipment manufacturing and suppliers in India.
