

About Us

Mala Metals came into existence in the years 1978 to manufacture & supply ISI mark Gun Metal / Bronze Valves & Cocks. The present standing of the company is mainly due to efforts & far sightedness of the founder Late Sh. Madan Mohan Dhawan.

Mala Metals is now AN ISO 9001:2000 Certified Company engaged in the manufacture of a vast range of more than 140 types of Industrial Valves & Boiler Mountings in Gun Metal / Bronze, Cast Iron, Cast Steel, Stainless Steel & Forged Steel materials in sizes ranging from 4mm to 200mm. We manufacture Industrial Valves / Boiler Mountings as per Indian and International Standards including BS, ANSI, DIN, JIS, API.. MALA has been accorded with certifications like BIS & IBR and Approvals from various Govt., Semi-Govt. and Private Sectors.

Mala Metal is equipped with in-house facilities viz. modern foundry, well equipped laboratory, precision workshop, material testing for the design & **FOUNDER** manufacture of Valves which ensures better control over the quality & timely Late Sh. Madan Mohan delivery of its products. Our team of well qualified Engineers & Technical Dhawan Personnel are always ready for any technical support & after sales services.

In recent years, Mala Metals has expended beyond India into international market place and are currently exporting valves to major countries. With a policy of continuous up-gradation of technology and processes while maintaining its cost efficiency by making optimum use of its resources & goodwill, the company is fast becoming a major player in the highly competitive global market.
