

Our Organization

Santram Engineers P Limited was started in 1988 by Mr. Jayendra C Vyas as a trading house for Premium Transmission Limited (Greaves Cotton Limited, at that time). Mr. Vyas is a Mechanical Engineer from LD engineering college, Ahmedabad and has also done his post graduation in management. He is technically very competent in the field of Mechanical engineering.

As SEPL grew under the guidance of its MD Mr. J C Vyas, over the years it collaborated with companies like Crompton Greaves, Hindustan Motors, Schrader International and Chicago Pneumatic to provide its customers with variety of products under one roof.

After completing his Bachelors and Masters in Computer Science Mr. Sarang Vyas has joined the family business in 2008 and is looking after Marketing. He has a 2 year work experience in a Data Center at CDW, Madison WI.

Currently SEPL has mix of experienced and young service and sales team which believes solely in customer satisfaction. SEPL has its marketing office spread over 1500 Sq ft at Ashram Road and a three storey warehouse cum marketing office of 9500 Sq ft in GIDC Vatva. The warehouse is also being developed into a gearbox and motor service station.

From a modest turnover of less than a million in 1988 SEPL today is targeting 190 million INR this year.

SEPL is associated with some of the best manufacturers of industrial equipments. SEPL is a trading as well as consulting firm for products of Premium Transmission Limited (Previously Greaves and Radicon), Crompton Greaves Limited, Hindustan Motors, Schrader International and Chicago Pneumatic.

Detailed product catalogs and detailed company information of our principal companies can be obtained from their respective websites.

Power Transmission Products

Santram Engineer PVT. LTD is a leading name to reckon with the finest quality industrial specific products like gearboxes, aluminium worm gearboxes, brake motors, flameproof motors, pneumatic air cylinders and the list goes on. It has been more than two decades since we have been working for our potential customers by offering them the finest range of Industrial Gearboxes and services that are beyond compare.

India is a developing country and numerous huge industries like textile, paper, plastic, ceramics, chemicals, rubber, cement tend to demand high quality Power Transmission Products and industrial gearboxes. Backed by vast industry experience, Santram Engineer PVT. LTD today is an authorized distributor of Greaves (premium) gears, Crompton motors, Premium Energy Transmission Ltd to name a few.

A Brief Introduction on Industrial Gearboxes

Industrial gearboxes are mostly defined as a machine which is mainly driven by a drive unit and provides a great help in reducing the speed and torque of the drive unit. Speaking of the design of a gear unit, it seems to be like any other machinery but you need to be well-experienced to work with such complex yet simple looking products.

Our market base is thoroughly expanded which incorporates a few well-known clients such as Sintex industries, Reliance Industries limited, Electrothem Limited, Wellspun, Adani Group, LNT, Gujarat Apollo Industries Limited and many others. You will be quite interested in knowing that the companies annual turnover is 30% or more growth rate each and every year.

Lastly, we have future plans to increase our horizon by adding new industrial Power Transmission Products and industrial gearboxes. So, when it comes to finding the most innovative solutions to your industrial gearboxes are mostly defined as a machine which is mainly driven by a drive unit and provides a great help in reducing the speed and torque of the drive unit. Speaking of the design of a gear unit, it seems to be like any other machinery but you need to be well-experienced to work with such complex yet simple looking products.

Our market base is thoroughly expanded which incorporates a few well-known clients such as Sintex industries, Reliance Industries limited, Electrothem Limited, Wellspun, Adani Group, LNT, Gujarat Apollo Industries Limited and many others. You will be quite interested in knowing that the companies annual turnover is 185 million INR with 30% or more growth rate each and every year.

Lastly, we have future plans to increase our horizon by adding new industrial Power Transmission Products and industrial gearboxes. So, when it comes to finding the most innovative solutions to your industrial needs, look no further than Santram Engineer PVT. LTD.
