Team of
Creative, Innovative, Experienced
Professionals

Company Name	Chandrika Industries
Nature of business	Manufacturer & Exporter
Address	Shed No 86/2, GIDC, Shanker Tekri Udhyanagar, Jamnagar, Gujarat, INDIA
Product Range	<ul style="list-style-type: none">- Brass Automotive parts- Brass Turned Parts- Precision Brass Components- Brass Machined Parts- Brass Cable Glands- Brass Fittings- Brass Fasteners- Brass Inserts- Brass Electrical Parts- Brass Sheet Metal Parts- Brass Mixi Parts- Brass Gas Fittings- Brass Cylinder Regulator Fittings.- Brass Terminals- Brass Stop Plugs
Cell No.	+91 80000 69691
Email	chandrikaindustries@gmail.com , info@chandrikaindustries.com
Owner	Mr. Ramchand Valwani
Established	March , 1976

Company Name	Chandrika Industries
The number of employees	150 (Including 50 temporary staff) Male: 70, Female: 30 (As of June 4, 2012)
ISO	9001:2008 RICL & Jaz-Anz
Operating Machines	Turning Bar CNC Automatic Lathe Second Operation Machines Milling Machines Threading Machines
Product Compliance	RoHS
Export Turnover	70% of Annual Turnover
Industries Served	<ul style="list-style-type: none"> - Electrical Equipments - Automotives - Telecom Communications - Utility Meters - Computer Peripherals - Plastic Molding - Electronic Circuit Hardware - Sanitary Fittings
Export to Countries:	Germany, South Africa, France, Spain, Italy, Singapore, Malaysia, Swedan, UK, Middle East, USA

Chandrika Industries is amongst the companies that offers only the flawless Brass products to its customers. We implement international quality measures in all our business operations, especially in the manufacturing process of our products. For ensuring proper implementation of these measures, we have employed a team of dexterous quality auditors. They have tremendous experience and expertise with respect to the brass industry. They supervise every production stage to ensure that our customers get only the best quality and high performance brass products and parts.

Machines & Instruments :

We have all most modern automate machines. Company has Conventional and semi conventional machinery to produce good Quality of Products. Sophisticated machine tools provide the finishing touches. We believe in Instruments are the heartbeats of Quality products. Our testing and checking division is well equipped with accurate instruments, gauges, general purpose instruments. Reliable Instruments used for quality assurance like "MITUTOYO" Vernier for dimension control, "H I P" and "BEKER" plug gauges & ring gauges to control internal & external threads, etc.

Training :

It is the all time practice of the company to train the entire staff at regular interval to keep update to strength of the company to produce the excellent quality of the product that meets the highest level of the customer satisfaction as all the time.

Our Manufacturing Capability, Owing to our robust manufacturing facility, we have developed the ability to meet all types of orders, in terms of quantity as well as quality. In the facility, there are a number of machines that work in a vertically integrated manner to ensure the production of best quality Precision Brass Parts, Brass Gas Parts, Brass Engineering Parts, Brass Fasteners and allied products.

Some of these machines include:

- Casting Machine
- Lathe Machine
- Cutting Machine
- Molding Machine
- Shaping Machine
- Polishing Machine
- Surface Roughness Testing

With the assistance of these machinery, we have acquired a high production capacity which is sufficient enough to fulfill all amounts of orders. In case of bulk and urgent orders, we can easily enhance this capacity.
