Vendor Base

Our enterprise has maintained healthy business relations with the well-known vendors of the industry in order to procure quality proven products. The vendors associated with us are selected on the grounds of their financial status, market credibility and authenticity. In addition to this, we have appointed a group of procuring agents, which selects the vendors by closely inspecting the quality of raw material that is employed in the production process. Another aspect that we take into account while choosing the vendors is their ability of fulfilling the voluminous demands of our esteemed customers.
