

About us

Akshaya solar power " (india) private limited was established in the year 2010. Akshaya is promoted by technocrats committed for hard working and dedication in taking challenges in reducing co2 emissions which is a green house effect by using surplus solar power. Akshaya has a dedicated team of professionals with years of solar and electronics experience. Akshaya is committed to manufacture and supply highest quality products. Akshaya product range includes roof top solar power stations, cfl and led based solar street lights, solar home lighting systems, solar lanterns and other custom made solar products. Akshaya has a core strength in manufacturing solar pv modules ranging from 3wp to 250wp with their semi auto manufacturing line with installed annual production capacity of 6mw with an expansion plan of 50mw by 2015.

Solar power:

- Future source of energy
- Surplus and clean energy
- Energy for sustainable development

Standards:

Akshaya solar power spv modules confirm to international standards iec61215 ed2,iec61730 safety class-ii,ul1703&ul4703.

Features:

- High reliability
- Bypass diodes to minimise the power drop due to shade

Applications:

- Remote village electrification
- Water pumping for remote villages
- Street lighting
- Home lighting
- Traffic signals
- Solar power plants
- Cell phone towers
