

Company Overview

Shailesh Industries is a leading and experienced manufacturer of heavy-duty engine spare parts, offering a comprehensive range of precision engineered components for the construction, marine, agricultural, mining, gas compression, trucking and industrial sectors. The company was established in 1979 and is based in Rajkot, Gujarat, India.

Founded and managed by experienced engineering professionals to cater the ever growing needs of the automobile and engineering industries worldwide, Shailesh Industries utilizes precise manufacturing and fabricating techniques, rigorous quality-control procedures and cutting-edge technology to provide innovative solutions to industry challenges. Our main aim is not only to provide the highest quality and most precise components that can be made, but to enable our customers to compete more successfully in the markets they serve.

Over the years the company grew through continuous technical innovations, through innovation, by adapting to the constant changes of the market into a modern enterprise for the production of high performance engine spare parts such as [In/Ex Valves](#), [Valve Guides](#), [Cylinder Liners](#), [Valve Seat Inserts](#) and Valve Rotators etc.

Shailesh Industries is certified as an ISO 9001:2008 complying company, certification that was granted and annually supervised by TUV - GMBH. Our vast experience in manufacturing of engine spare parts ensures the smooth operation of the whole manufacturing process - from material inputs, manufacturing, quality control, delivery to back-up services.

Presently, Shailesh Industries manufactures engine spare parts for the following engines categories:

- Automotive - Passenger vehicles, low, medium and heavy commercial vehicles
- Agricultural, tractors and other earth moving machines
- Locomotives
- Generators and industrial engines
- Marine applications
- High performance racing engines
- Natural gas engines
- Military, combat and tactical vehicles

Marine Engine Spare Parts

Over the past few years, Shailesh industries has committed itself to producing high quality and cost effective marine engine spare parts. Today our main focus is on manufacturing marine diesel engine parts for domestic as well as overseas markets and we are enlisted among the leading manufacturers and suppliers of quality marine engine spare parts. All marine diesel engine parts manufactured by Shailesh Industries are completely compatible and interchangeable with the OEM.

Today we offer aftermarket and direct replacement marine engine spare parts for the engines of world's leading marine engine manufacturers such as Allen, B&W, Daihatsu, MAN, Cummins, Hanshin, Yanmar, Niigata, Akasaka, Makita, Deutz, ITO, Mitsubishi, MAK, Pielstick and other famous brand names.

Exporting to the World

Our industrial expertise, transparent deals, fast delivery, customer based approach and most importantly a zero defect range of products have assisted us to cater to various clients spread across the globe in various parts of the world like U.K., Israel, Middle East, Europe, Russia, Bulgaria, Brazil and African Countries.

Vision & Values

We at Shailesh Industries are committed to customer satisfaction by providing products which consistently meet or exceed customer requirements. Our mission is to find the best engineering solutions for the customer's particular requirement or requirements which results in the creation of long standing commercial relationships built on mutual trust and understanding.

Our Vision

We aim to grow as an industry leader by exceeding customer expectations through continuous improvement driven by the integrity, teamwork and commitment of our people.

Our Values

Integrity - We will conduct our business in a way that makes us proud, doing what we promise to do and doing it in the right way.

Quality - We will meet our commitment to excellence by continually improving the quality of our products and services to our customers.

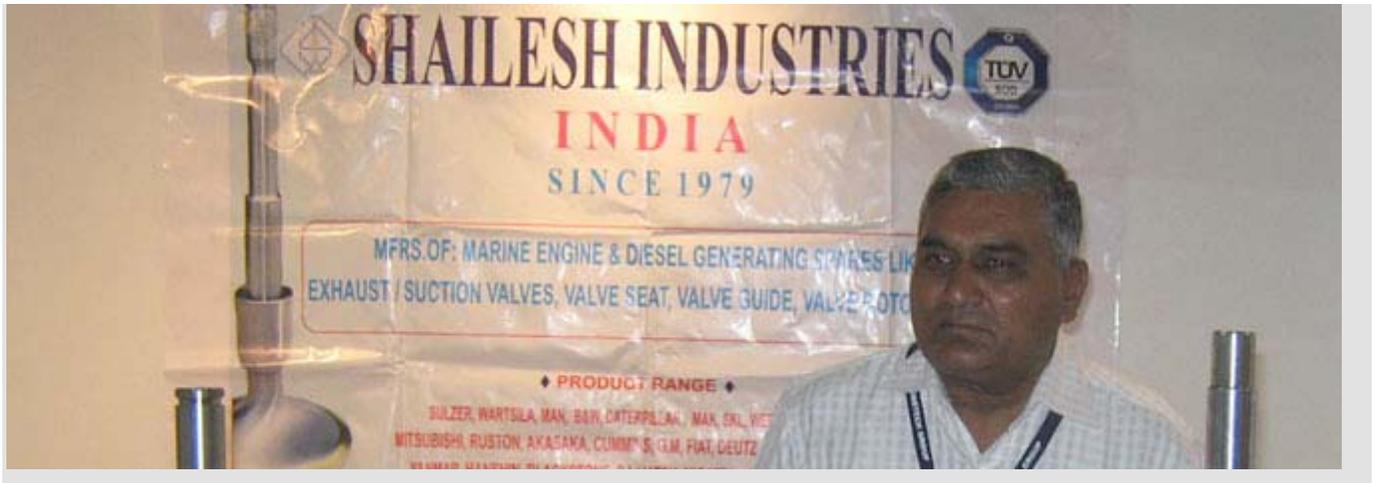

Innovation - We will support and encourage the sharing of ideas, insights and experiences to continually improve our products, processes and capabilities for the benefit of our customers.

Teamwork - We will work in a collaborative environment where team success takes precedence over individual achievement and where we encourage new ideas and practices without judgment or criticism.

Responsibility - We believe in accepting responsibility and the consequences, and taking ownership while embracing common goals, teamwork, and collaborative decision-making.

Management

Mr. J. S. Sorathia, *Founder & Owner*

Mr. Jasmatbhai S. Sorathia has an extensive experience of over 40 years in the engineering industry. He started his career in an engine valve manufacturing company which manufactured small engine valves for lister-petter engines. His ambition was to do something different in terms of manufacturing engine parts which no company produced at that time in Rajkot. To fulfill his dreams, he started Shailesh Industries in 1979 and under his sound leadership the company has grown from strength to strength. Today Shailesh Industries is one of the few manufacturing units in India that manufactures large engine parts for marine and heavy-duty applications.

Throughout his career, he has gained an in-depth knowledge of manufacturing engine parts for various applications. His engineering, manufacturing, operations and management experience have facilitated the substantial growth Shailesh Industries has experienced over the years.

The profound knowledge and rich experience of the Mr. Sorathia has assisted the company to acquire distinguished position amidst the trustworthy manufacturers & exporters of precision engine products.

Mr. L. J. Sorathia, *Manager*

Mr. Lalit is son of Mr. J. S. Sorathia. He displayed his business acumen from an early age and soon after completing his education he joined his father's business. Having inherent traits of his father along with blend of administrative & entrepreneurial skills, he has given a major contribution in the steady growth of Shailesh industries. He has to his credit more than 15 years of experience in various fields of Business, Industry, Import / Export, Finance etc. Through his business innovations he has always tried and succeeded in new ventures besides upgrading the current line of action on an ongoing business.

A very down to earth person, who started his initial training at his own manufacturing operations and hence on, has sharply given a different dimension to every facets of development of business. He believes in human element the most, and is particular in keeping his team motivated in every respect thus enhancing the Individual's as well as the organization's productivity.

Growth Initiatives

Our passion for progress is reflected in our disciplined planning and management process that enables the company to anticipate changing economic and industry conditions, thereby putting the company in position to create value for customers.

We believe that growth comes from innovative approaches to your existing business, as well as transformational initiatives.

Shailesh Industries has made a special commitment to invest in long-term strategic initiatives that are the engines for our growth:

- Establishing and growing our presence in overseas market
- Expanding product, solution and service offerings to enhance customer value
- Meeting the needs of our key regional customers to help them grow
- Maintaining and strengthening our leadership positions in our core business of manufacturing engine parts.

We continually seek to improve our manufacturing processes, distribution logistics, and on-time delivery performance to exceed customer expectations.
