

## About Us

Our first endeavor in the name of VEE & JAY Engineering was setup in 1980 at Ambattur Industrial Estate, Chennai. As the quality of our product spoke for us, we grew and which gave the path for us to start our second venture Sri Vijayalakshmi Engineering at Ambattur in the year 1995. After five years, Towards path of growth, we further enhanced our capability and formed private limited company, Sri Vijayalakshmi Fabricators Pvt. Ltd. (SVFPL) at Ambattur in the year 2000. SVFPL have excellent track record of maintaining quality and delivery to the entire Satisfaction of the clients. SVPFL is headed by qualified professionals and highly skilled workers having vast experience in this field. We have built excellent levels of expertise in executing heavy, precision and specialized fabrication equipments to cater to any type of industry

**Our Vision** It is the vision of Sri Vijayalakshmi Fabricators Pvt. Ltd to be recognized as a company whose success is built upon the systems of consistent quality, Customer satisfaction & continuous improvement. Our main objective is a growing and prospering business by offering superior quality products, customized solutions and progressive customer service Through strict adherence to our corporate values, SVFPL will become a standard of excellence and service, and will be the first choice for Heavy, Precision and specialized fabrication Equipments. **Our Mission** The mission of Sri Vijayalakshmi Fabricators Pvt. Ltd is to be a world-class manufacturer of metal products and services.
