- Superior quality products
- A design solution to a design problem
- Proven ability in successful execution of small as well as bulk orders
- Timely supplies
- Competitive prices
- Unending pursuit of product, process and performance optimization

Quality

At **Simplex Metal & Alloys** our employees adhere to and contribute to the efficiency of our quality system in every aspect of our business. Our commitment guarantees to provide our clients with uncompromising quality and service. This is achieved through a team approach where all the members are aware of the company objectives and work within their own discipline to make an effective contribution.

To verify that the supply made to our clients exact specifications, our quality control team combines technical expertise, knowledge of industrial standards and the latest inspection tools and machines to meet all requirements. Particular attention is paid to high quality, tolerance and traceability

Our quality assurance program maintains the highest level of quality and actively contributes towards establishing and achieving the corporate objectives. Quality people, quality engineering and quality products.

These are the key to **Simplex Metal & Alloys** continued growth.

Our commitment guarantees to provide the customer with uncompromising quality, responsive service, competitive pricing and on time delivery. This is achieved through a team approach where all the members are aware of the company objectives and work within their own discipline to make an effective contribution.

The quality assurance system is guided by principles that support our unique working culture which incorporates respect, self management, open communication and creativity.

These principles are:

- We strive to be the best in our industry.
- We care about our customers, our suppliers and partners.
- We do our absolute best to honor our commitments.
- We strive to always act with integrity and fairness.
