

About us

We would like to introduce ourselves as manufacturer and exporter of Chemical plant machinery and Industrial Equipment. We have been in this business for last so many years.

In our infrastructure, we have maintained a well-developed in-house testing department. This department is installed by requisite technologically advanced machines & tools, which are proficiently handled by a team of experienced professionals. They check our offered range on defined parameters, such as durability, corrosion resistance and performance.

This helps our professionals in offering superior quality Industrial Products to the customers by eliminating the defect product range. Apart from this, for maintaining the quality of our offered range, we have developed a warehousing unit, where the manufactured products are stored safely until they are finally delivered to the markets. The products offered under our brand name, are marketed at industry leading prices throughout the country.

Using Chemtech technologies, high class machines and quality raw materials of Stainless Steel and Carbon Steel. we have produced a wide range of products that are targeted towards meeting the needs of various industries including chemical, food, distillery, petrochemical, and so on. We procure the indigenous raw materials from reputed steel suppliers. In addition, we are also experienced in working with various materials such as copper, brass, Monel, inconel, titanium and duplex steel.
