

About Us

Saini Industrial Corporation (Regd.) had been established in the year 1972 under the leadership of Mr. Prem Kumar Saini.

mohit saini and prem kumar sainiMr.Prem Kumar Saini, who has diverse rich experience across Sheet Metal component Industry, is a renowned sheet metal expert and creative Entrepreneur. His strong point has delivered world class high quality and innovative sheet metal components for MCB, PANELS & Fasteners etc. He always think innovative thinks to make improvements in the quality, so he take a dream to manufacture sheet metal components at the fully automated machines, which will reduce the labor. He imported the strip forming machines, tapping machines (all fully automated) from overseas, which increase the production of plant. Now our plant is capable to produce the components in bulk quantities and supplying to very /most reputed O.E.M in Electrical Industries, Hardware & Automobile Industries. Our plant has very experienced technical team which achieve targets of new developments in time as given by O.E.M's.

Our mission to become one of the best manufacturers is backed by our strong infrastructure which comprises of technological advanced machinery, automatic designing tools and assembling facilities. Our able administration and sophisticated production facilities ensure best quality in our products. We manufacture efficient products through a well-organized set up which includes independent departments for product assembly, quality testing and development, stores, dispatch, administration and finance. This set up is manned by an expert technical support staff.

Quality Regime:-

We, at Saini Industrial Corporation (Regd.) are committed to enhance customer's satisfaction by meeting or exceeding customer's requirements. We have a leading position in the industry by the virtue of our excellent customer services, reliability and quality. We understand the actual needs of our clients and offer them totally reliable solutions. To maintain our tremendous growth rate, we ensure that product improvement is done on regular basis with stringent quality measures and make them available at nominal cost.

Our work force shares the responsibility of maintaining the quality through our total quality management program.
