

## About Us

We are a team of committed professionals manufacturing wide range of coolant/ oil filtration, chip conveying and chilling units. We have a decade of experience in designing, developing and supplying of these products to various engineering industries like Automobile, Heavy engg etc.

We have a wide range of standard & custom built models of ours – Reducing the Production cost & time, saving the oil / coolant life, fine tuning the surface finish of components at numerous machine shops in the country.

### **Our Range of Products includes:**

Centralized Conveyor and filtration systems

Chip treatment system

Magnetic conveyor

Centrifuge filter

Wiper Conveyor with drum filter

Hydro cyclonic filter

Oil skimmer

Panel coolers, chilling units

Hinged belt conveyor

Screw conveyors

Cartridge / bag filter

Compact paper band filter

Dual conveyors with drum filter

Magnetic separator

Paper band filter

Also dealing in taiwan make geared motors and transmission products

Filter paper rolls

Representing **RRR Japanese products** for filtering Hydraulic & Lubrication Oils in Tamilnadu Region
