

About Us

Shine is a name synonymous to “making with brilliance”. Shine Metal Udyog established in 1997, believe that quality management is the essence of every company. Well experienced team of professionals with years of experience, with an unmatched dedication and principled approach to work which consist of design and engineering group, qualified and skilled engineers, assemblers fabricators workers and helpers. Shine Metal udyog (SMU) is an ISO 9001:2008, ISO 14001:2004, OHSAS 18001:2007 certified having turnover of 120 crores.

The Promoter started with the company "S. R. Trading" in the Year 1981, well known organization with years of rich experience. The companies owner Mr. Rajeev Gupta has the experience of 35 years in sheet metal components and knows how Indian Market has matured to accept more internationally acclaimed products as long as they are high quality performance machines

SMU is equipped with the state-of-the-art manufacturing facilities manned by a highly experienced, motivated and dedicated team to produce a high quality product to offer to our customers

We have registered an exponential growth these years. All this has come after rugged product testing of a quality product produced by us, after honoring our commitments of timely deliveries and round the clock after-sales-service support given to our esteemed customers

Quality & Safety

We are committed to excellence in design and manufacturing of our products through the adoption of modern technology. We strive to exceed international standards for quality; durability and efficiency through constant improvement in our systems and processes. We are highly determined to ensure the safety of our peoples & equipment so that an accident free environment is maintained.

Mission & Vision

Our Vision

Aim high – so high that it changes the way people understand business itself. Charting a progressive course – not just for business, but also for society at large. Creating business that keeps finding new ways to inspire employees, clients, investors, government, and citizens of its communities. Business that everyone understands, no matter what changes in and around it.

Our Mission

- Sustain Business Growth.
- Dedication to every customer's success.
- Innovation that matters.
- Reuse, reduce, recycle, renew
