

About Us

Mita Chem Pulveriser Industries was established in the year 1964 by Mr. D.C. Shah. We are chiefly into the manufacturing and supplying of an extensive range of pulveriser machines, tray dryers, hot air pack, fluid bed dryers and vibro shifter. We are specialist in fabricating high functionality, qualitative drying, mixing and sieving system.

Our chief Mr. Sunil D. Shah is an expert and has a good number of years of experience in this field. Under his guidance, we make an assortment of ten different models of pulveriser machines ranging from 2 H.P. to 60 H.P. To us, customer satisfaction is the chief goal. Hence we put a lot of emphasis on maintaining the quality of our machines, so that they offer excellent performance in a very durable manner.
