

About Us:

DLT Bearings is one of the leading bearing companies in India, Manufacturing and Exports different types of bearings like Taper Roller Bearings, Spherical Roller bearings, Cylindrical Roller bearings and Ball Bearings Since 1993.

DLT Bearings have wide spectra of applications in Heavy Commercial Vehicles, Light Commercial Vehicles, Earth Moving Vehicles, Tractors, Trolley Axles, Diesel Engines in Indian Replacement Market. We use the most updated measurement and testing technology to enforce rigorous quality checks on all its products.

Mission:

Our mission is to keep the industry in motion by manufacturing of high quality bearings at competitive Prices and ensure customer satisfaction to hold leading position as manufacturer of wide range of bearings.

Quality:

Material Used:

- 1) Bearing Rings: SAE 52100
- 2) Rollers: EN-31
- 3) Cage: Metal Sheet

Heat Treatment:

DLT Bearings races are hardened and tempered with 58 to 62 HRC maintained.

Dimensions:

DLT Bearings adopted International Standard for Dimensions and Tolerances.

Finishing:

The Raceway of both the Rings and Rollers are Super Finish Passed through Honing Process to achieve Super Micro Finishing.

Inspections:

DLT Bearings adopted full proof technique for inspection at various stages like raw-material, semi-finish and final assembly by well experience technical staff.

Packing:

Assembly and Packing bearing carried out in clean atmosphere with preservative for long life of DLT Bearings.
