

ABOUT US...

Established in the year **1994**, we, '**Lakhi Blower Industries**', have positioned ourselves in the league of the most venerated manufacturers and suppliers of an impeccable assortment of **Industrial Blower/Fan & Ventilation Systems and Air Blower & Air Pollution Control Equipment**. These products are manufactured by our technocrats using premium grade raw material and spare parts sourced from the certified market vendors. Apart from this, advanced equipment and tools are employed by the technocrats to manufacture these products. Owing to their longer functional life, optimum durability, excellent performance and smooth surface finish, these are highly demanded by the esteemed patrons.

In our endeavor of delivering quality assured range of products to the clients, we are assisted by a team of qualified professionals. These experts are well versed with complete know-how of their respective domains. Apart from this, our logistics personnel make sure that the consignments are delivered within the stipulated time frame at clients' premises.

Under the worthy guidance of our mentor, '**Mr. Rajaram Yadav**', we have been able to achieve inordinate targets. His rich past academic record and profound domain expertise have helped us consolidate our market position.

Salient Feature

Welded Seel Construction : The equipment are fabricated from heavy gauge steel sheets , welded through out.

Impeller Types : impeller are available in various designs to suit different applications. viz backward & forward curved blades, radial, padel wheel etc.

Dynamically and statically balanced impellers ensure stable, vibration free operation.

Economic Operation : Simple well proven designs, rugged construction ensure minium maintenance, stable performance and low operation costs.

Company Profile

Basic Information

Business Type

Supplier

Manufacturer

Ownership & Capital

Year of Establishment

1994

Trade & Market

Annual Turnover

US\$ 0.25-1 Million (or Rs. 1-4 Crore Approx.)

Our Strengths

Owing to the ethical business policy and transparent dealings, we have been able to prove our mettle in this highly competitive market. Apart from this, we have been maintaining a spotless track record of delivering a quality assured array of products to the patrons within the postulated time frame. Some of the other pivotal features that set us apart from our contemporaries are as follows :

- » State-of-the-art infrastructure
- » Experienced team of professionals
- » Customization facility
- » Competitive pricing
- » Sound financial status

Product Portfolio

We are one of the most coveted manufacturers and suppliers of a quality assured gamut of **Industrial Blower/Fan & Ventilation Systems and Air Blower & Air Pollution Control Equipment**. These products are manufactured in compliance with the prescribed international standards. Besides, our technocrats employ latest machines and tools to fabricate these products. Owing to their longer functional life, easy maintenance, excellent performance, smooth surface finish and reliability, these are highly demanded by the patrons. Our complete range comprises :

Categories	Products
Industrial Blower/Fan	Tube Axial Fans
	Standard Axial Flow Fans
	Industrial Boiler Fans
	Boiler Fans
	Axial Fans
	Heavy Duty Draft Fans
	Industrial Forced Draught Fans
Air Pollution Control Equipment	Dust Separators
	Cyclone Dust Collectors
	Bag Filters
Air Blower	Centrifugal Fans/Blowers
	Turbine Blowers

Apart from this, we also offer the following products :

- Material Handling Blowers
- High Pressure Blowers
- ID & FD Fan
- Ventilation Systems
- Centrifugal Blower
- Cyclone Separator

DIDW centrifugal blowers are designed for high volume, low pressure, low noise level for Air Conditioning, General Ventilation, Air Cooling, pressurization and wherever Air Draft over large areas is needed. The welded construction makes the fan robust and sturdy. Impellers are statically and dynamically balanced.

Our Team

In our pursuit of delivering a pristine assortment of products to the patrons, we are supported by a team of qualified professionals. These experts have mastered both theoretical and practical aspects related to their respective fields. Moreover, they work in tandem with each other to reap the advantage of teamwork. In addition, they maintain cordial relations with the patrons to understand and fulfill their exact requirements. Our complete workforce comprises the following members :

- » Technocrats
- » Procurement agents
- » Quality auditors
- » Logistics personnel
- » Sales & marketing personnel
- » Skilled labor

Infrastructure

We have developed an in-built state-of-the-art infrastructure that is spread over a wide area. This facility is divided by us into various sub-departments like manufacturing, quality control and research & development to facilitate systematic functioning of all the processes. Our manufacturing unit is armed with all the requisite machines that reduce the production time. Moreover, to confirm the authenticity of the finished products, these are subjected to various tests at the quality control laboratory. Moreover, we have been able to improve the quality of our product range, owing to the dedicated efforts of the research associates.

Quality Assurance

To deliver a quality assured range of products to the patrons, we utilize premium grade raw material and spare parts for their fabrication. Apart from this, sophisticated equipment and tools are employed by the engineers to execute all the production related processes. Post production, these products are duly tested on certain parameters by the quality auditors employing hydraulic & leak proof test. Following are the parameters on which our complete range is tested by the quality auditors :

- » Construction
- » Corrosion resistance
- » Surface finish
- » Maintenance
- » Dimensional accuracy

Research & Development

We have established a separate research and development department at our premises, which is an integral part of the organization. This department is manned by a team of highly qualified research associates, which holds sound experience of this domain. Apart from this, these professionals conduct exhaustive market research to keep themselves abreast of all the advancements occurring in the field of science and technology. Besides, they maintain cordial relations with the clients in order to understand their exact requirements. Owing to their consistent efforts, we have been able to ameliorate the designs and quality of our product range.

Client Satisfaction

At our organization, we give utmost respect to the clients. We try our level best to deliver a quality assured assortment of products to the esteemed customers within the stipulated time frame, using our rich distribution network. Apart from this, clients can make payment through various modes such as **cheque, DD, credit card, cash and online** to simplify the tedious process of monetary transactions. In addition to this, we also provide the facility of customized solutions to the patrons as per their specifications.
