

BROCHURE

INTRODUCTION

Rajeev and Company, are manufacturers of Ball Valves under the brand name KAVAATA VALVES, with head office at Belgaum, Karnataka, India. Rajeev and Company, is an ISO 9001:2008 company and renowned to manufacture high quality, high precision, low torque ball valves. The company has highly qualified promoters, skilled and motivated manpower, financial resources, state-of-the art machinery and the required expertise to design, develop and deliver new types of valves in shortest possible time.

HISTORY

Our works at Dewarwadi Village in Kolhapur Dist. of Maharashtra, India was established in the year 1996 to manufacture Ball Valve components. In 2006 it was forward integrated to manufacturing of Ball Valves. The Company is part of Rao Enterprises, a group promoted by Mr. N.K. Bheema Rao, M.Tech (IIT, Delhi). Rao Enterprises is in Textile business since 1984.

PROMOTERS

The promoters of the company are Mr. N.B. Rajeev Rao, MS in Mechanical Engineering, Clemson University, USA and Mr. N.B. Ashok Rao, MS in Electrical Engineering, University of Maryland, USA.

INFRASTRUCTURE

The plant is located on a lush green 4 acre plot amid 1000 teak, coconut and mango plantations. The campus consists of a 5000 sq. feet building which houses state-of-the-art machinery for manufacturing valve components, such as CNC turning centers, CNC Vertical Machining Centers, Lathes, Milling Machine, Cutting, Buffing and Welding machines. It is also houses a finished goods store. Another 12000 sq. feet of built up area is devoted for assembly, paint shop and testing facility. A separate store houses the incoming raw material.

All components are machined In-house which ensures excellent interchangeability between components and timely delivery of valves.

All Tools, Jigs and Fixtures are made In-house leading to shortened Product Development Cycles

March 13, 2017

Factory: 103/3, Devarwadi Village, Tal: Chandgad, Dist: Kolhapur, Maharastra- 416 507, India
Office: 423, Nazar Camp, Cross 3, Main Road, Vadgaon, BELGAUM- 590 005, Karnataka, India
Phone: 91-831-2482327/ 2484635 Cell Phone: 91-92432 22573, 92432 20173, 92432 10643
Email: sales@kavaatavalves.com Website: www.kavaatavalves.com

The campus also provides residential facilities for its employees, with amenities such as Sports facilities, Television, cooking provision, hot water etc. The company has its own transport vehicle to transport goods from and to the nearest transporter's offices.

We are always striving to continuously improve our products. The activity is carried out by our R&D team headed by an Engineer.

The Marketing Department is located at our Head office at Belgaum. Our design department, which uses the latest modeling and analysis software, also works out of the head office.

PEOPLE

The team of highly motivated individuals is headed by Mr. N.B.Rajeev Rao, who as a co-founder, is technically qualified and experienced. He has developed the company from infancy to the present size. He is actively involved in the day to day activities of design, production and product development.

Mr. N.B.Ashok Rao is responsible for marketing, finance, approvals, exports and certifications.

Mr. Prashanth Rao is the Marketing Manager responsible for marketing our products in India.

Mr. Ramesh Patil is the Works Manager responsible for day to day operations of the factory.

PRODUCTS

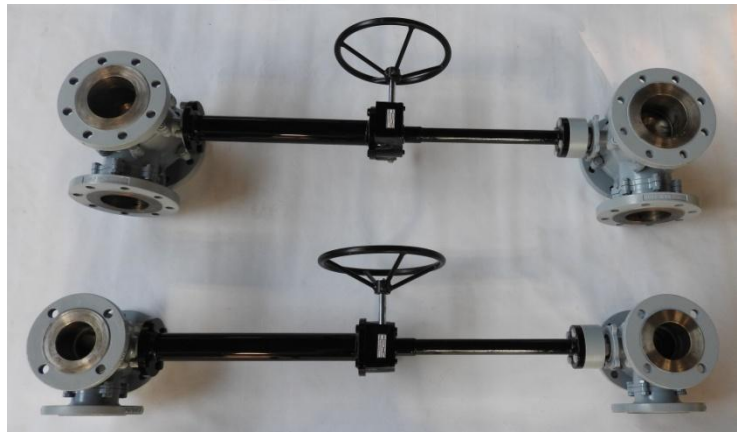

Our present range of valves include the following

Description	Image
a) Ball Valves Flanged end 3 piece design non-fire safe, 150#, 300# and 600#, in WCB, CF8, CF8M, Super Duplex 2507 - sizes : 0.5" to 10"	
b) Ball Valves Flanged End 2 piece Design Fire Safe, 150#, 300# and 600# , in WCB, CF8, CF8M, Super Duplex 2507 - Sizes : 1" to 10"	
c) Ball Valves Screwed End 3 piece design non fire safe, up to 600#, in WCB, CF8, CF8M, Super Duplex 2507 - Sizes : 0.5" to 2" (BSP/NPT/BSPT, Socket Weld)	

d) Ball Valves Screwed End 2 piece (some call it single piece) non fire safe, up to 300#. in WCB, CF8, CF8M, Super Duplex 2507 - Sizes : 0.5" to 2" (BSP/NPT/BSPT, Socket Weld)

e) Ball Valve Flange End 3 Way L port, non-fire safe, 150# and 300#, in WCB, CF8, CF8M, Super Duplex 2507 - Sizes : 0.5" to 8"

f) Ball Valve Metal Seat, Flange End / Screwed End / Socket Weld 3 piece design, Temp up to 527 deg C, WCB - Sizes : 0.5" to 4" for Flange End, 0.5" to 2" for Screwed End and Socket weld ends.

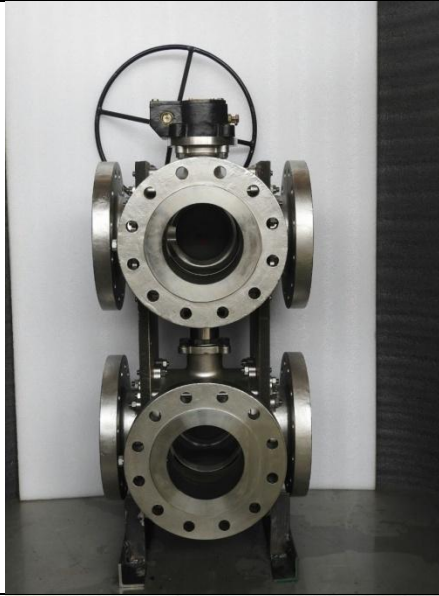

g) Ball Valve, High Pressure, Screwed End, MS body, upto 400 bar - Size 0.5" to 1"

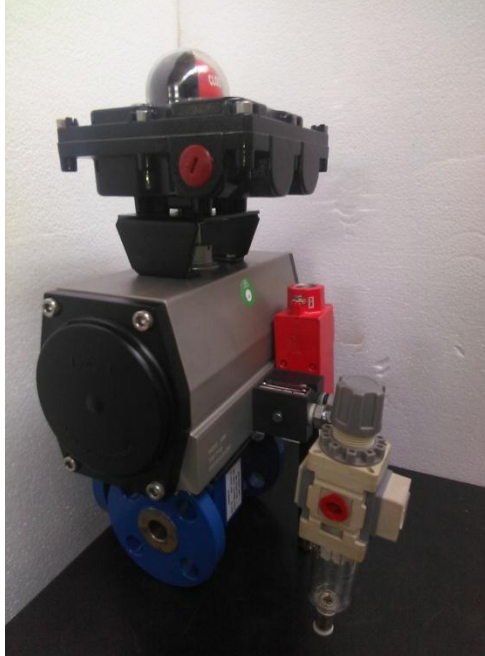

h) Ball Valves, Forged Steel A105, Screwed end (BSP, NPT, and BSPT) and Socket weld, 800#, 1000, 2000 and 3000 psi WOG, Reduced bore - Size: 0.5" to 2".

i) Ball Valve, 6 way till 6" in WCB,CF8,CF8M and Duplex materials.

j) Ball Valves with Actuators and other accessories

CUSTOMERS

We have a large base of customers both local and international. A separate list gives the details. We have been supplying regularly to some of the PSUs such as BHEL Hyderabad, BHEL Bangalore, HLL Lifecare Ltd, Kanagala, Belgaum. Our corporate clients include – JSW Steels Ltd, Bellary, Kansai Nerolac Paints Ltd, (to their plants at Lote, Bawal, Kanpur), Wipro Ltd, Tumkur, Grasim Industries Ltd Karwar, Indo Borax and Chemicals Ltd, Pitampur, United Heat Exchangers Pvt Ltd, Nasik, Radiant Engineers, Pune to name a few.

We have export markets in Denmark, Germany, Thailand, Mexico, Czech Republic, Brazil, UAE, Saudi Arabia, Qatar, Belgium and Netherlands.

CERTIFICATIONS

We are an ISO 9001:2008 company certified by TUV-SUD. Most of our valves fall below the requirement of CE marking and hence Certificate of Conformity is issued in lieu of CE marking.

PARTICIPATION IN EXHIBITIONS

2010 – IPVS Chennai
2012 – MSV Brno 2012, Czech Republic
2013 – PVPE Expo 2013 Gandhinagar (Oct 2013)
